a touch of Blue
wedding signs

Meet the maker

I'm a Perth, Australian based illustrator and graphic designer who goes by the name Little Blue. I have been doing my thing working for myself since late 2014. Since then I have developed a love for hand lettering and started making wedding signs under the name A Touch of Blue at the start of 2018. I strive to make beautifully stained and hand-lettered wedding signs which will bring a little special something to a couples big day.

Each sign is handmade. The wood is personally picked for its grain then stained in a lovely rich walnut stain to bring it to life and hand-lettered in a crisp white. Then carefully packaged in recycled bubble wrap and simple recycled brown butchers papers gathered from another local small business in Perth, this helps us both combat unnecessary waste and lessening our ecological footprint.

From the moment I pick the wood until the moment its shipped off to you a great deal of time and attention to detail is put into each sign. These signs are made with love for love and I wouldn't have it any other way.
